*Welcome to Mexico, Puerto Vallarta and its surroundings!*

In the field of health, Puerto Vallarta is a safe place to travel and to have the resources and infrastructure necessary to provide Medical Services First Level (Intensive Care, MRI, CT, X-Rays, Endoscopy, Hospitalization, Team advanced Cardiac Cath, etc.). you may require.

Medical Travel Services is an independent body of doctors who are seriously committed to ethical medical practice based on evidence.

Travel Medical Services, as an association has been given the task of standardizing the conditions of providing medical services to meet local requirements, National and International, with a quality that exceeds consumer expectations, in this case and Tourists and residents of the area.

The Medical Travel Medical services specialize in providing services to First Contact, that is, given medical care in Hotel and / or Address of the patient, not just in our clinics. It provides medical care in emergencies of all types, general medical consultation, application of treatments, vaccines, cures, etc..

To facilitate contact between the patient and the doctor we have several offices and clinics spread across the area. When a patient requires more advanced medical service is then channeled to the best specialist for the problem that exists or may be referred to diagnostic centers or hospitals associated.

The supply of medical services is offered 24 hours a day, 7 days a week with bilingual doctors specially trained and certified in emergency maneuvers (ACLS, BTLS, ATLS) for adults and children. No appointment needed for access to services, it is sufficient to request the service by telephone or go directly to any of our centers.

Our purpose is to make you feel safe while visiting this tourist destination and enjoy your stay as never before.
